Important Recommendations for the Government of Our Finances

All Leading Questions Involving the Prosperity of the Nation Treated in a tunctse but Interesting Manner.

To the Congress of the United States:

At the threshold of your deliberations I congratulate you upon the favorable aspect of the demostle and foreign affairs of this flow-erament. Our relations with other countries continue to be upon a friendly footing. With the Argentine Republic, Beigium, Brasil, Donmark, Hayti, Italy, Santo Domingo and Swelen and Newwy, no incident has occurred which calls for special comment. The recent opening of new lines of telegraphic communicating with dentrel America and Brasil permitted the interchange of necessary of friendship with the Governments of those countries.

The pravisions for the reciprocal crossing of the frontier by the troops in pursuit of hostile Indians have been protonged for another year. The operations of the forces of both Governments against the satages have been successful, and arversal of their most dangerous hands have been explicated or dispersed by the skill and valor or United States and Mexican soldiers fighting in a common cause. [Applause.] Many reforms are undoubtedly necessary, and it will be your duty, after a careful examination of the whole subject in all its bearings, to decide how far they should extend and when and in what manner they should fear that your action in this or any other subject will be injurious to any interet; or even afford reasonable cause for alarm, I am quite sure they will be agreeably disappointed. [Applatise] What the country has a right to expect is strict economy in the administration of every department of the Government, just and equal taxation for public purposes, the faithful observance of the limitations of the Constitution, and a scrupulous regard for the rights and interests of the great body of people, in or-der that they may be protected, for Congrees has the power to protect them against encroachments from every direction.
